Professional Summary

Senior IT Security Engineer and Consultant with over 15 years of experience leading cybersecurity, cloud infrastructure, and digital transformation projects across Nigeria and the UK. Founder of Quatos Tech, recognised for delivering high-impact IT solutions to financial institutions, law firms, government agencies, and SMEs. Proven expertise in advanced network security, incident response, digital forensics, and enterprise IT architecture. Strong record in mentoring teams, managing IT operations at scale, and implementing innovative solutions that reduce cyber risk and improve operational efficiency.

Key Skills

- **Cybersecurity Leadership:** Strategic security planning, risk management, penetration testing, ISO 27001, NIST compliance
- **Cloud & IT Infrastructure:** Enterprise cloud integration, hybrid environments, disaster recovery, optimisation
- **Network Security:** Firewalls, VPN, IDS/IPS, Zero Trust, PAM, SIEM, SOC leadership
- **Digital Forensics & Incident Response:** Malware analysis, insider threat, log analysis, IR playbooks
- **Programming & Automation:** Python, PowerShell, Bash scripting, automation in CI/CD pipelines
- **Training & Mentorship:** Developed and delivered IT security training to 500+ professionals globally

Professional Experience

Team Lead – Cybersecurity | Innaynova Tech Ltd | Sep 2025 – Present | Remote

- Own enterprise cyber-risk framework; report quarterly to execs/board on KRIs/KPIs and compliance (ISO 27001, NIST).
- Lead SOC, incident response, and vulnerability management; implement Zero Trust, VPN, and firewall hardening.
- Embed DevSecOps in CI/CD; improve detection/response time via automation.
- Enforce CSPM across M365/Azure; strengthen identity & access governance.

Founder & Senior IT Security Consultant | Quatos Tech | 2015 – Present | Remote

- Led digital transformation for clients across finance, legal, and government, improving uptime by 38% and reducing cyber risk by 60%.
- Designed and deployed RFID-based student ID systems and NYSC service portals, enhancing operational efficiency for 10,000+ users.
- Delivered security upgrades for Boctrust Microfinance Bank, improving compliance and reducing downtime by 42%.
- Mentored over 500 IT professionals, organised STEM workshops, and delivered cybersecurity awareness programs in the UK and Nigeria.

Cybersecurity Consultant | Dotcom Solicitors | Sep 2022 | Remote

- Delivered GDPR-aligned cloud security framework; conducted risk assessments and remediation.
- Developed secure digital platforms with MFA and encryption, ensuring compliance and client data protection.

Senior Regional IT Support Engineer – Network | System | Infrastructure | Server Administration | Sterling Bank PLC, Nigeria | Dec 2016 – Sep 2021

- Managed enterprise infrastructure supporting 5,000+ users across multiple regions.

- Implemented secure VPN, firewalls, and endpoint security solutions reducing incidents by 35%.
- Led Windows 10 & Office 365 migration for 5,000+ users, improving productivity and compliance.

Education

BSc (Hons) Computer Networks & Security | University of Greenwich, London, UK | 2014

Certifications

- ITIL® 4 Foundation
- Cisco CCNA (or CCNP, ensure correct one)
- Cisco Certified Support Technician (CCST) – if applicable
- Cybersecurity Certification (specify exact vendor/exam)

Professional Development & Volunteering

- Volunteer IT Consultant for AAA Digital Concepts UK digital literacy and cybersecurity awareness projects.
- Conducted STEM workshops on digital safety, cloud adoption, and IT career pathways.
- Mentored junior engineers and provided IT career support to 500+ youth and professionals.
